

Permission to Use Land and Indemnity Agreement

We the undersigned, do wilfully and without reservation enter the following agreement concerning the use of private land as an operating field for Powered Paragliding (PPG). After signature is affixed hereon, the first party (the landowners) agrees to allow the second party (the pilot) to use their land for the purpose of taking off and landing with a powered paraglider. In return for permission to use the facility the pilot agrees to accept total responsibility (and pay) for any damage, by him, to the landowner's property. Also, the pilot agrees to indemnify the landowner for any damage or personal injury to the pilot or bystanders which may result from the use of the above said land. The pilot recognizes that in all flight, there is an inherent amount of risk and accepts that risk and agrees to indemnify the landowner for any mishap which may occur as a result of any holes, rocks, hills, trees, fences or other irregularity in the land, defects in the aircraft, pilot error or act of God. As such, the pilot forfeits his right and the rights of his family to file suit against the landowner or his/her family, seeking punitive or other damages as a result of a mishap while operating from the landowner's property.

Including ground handling (aka "kiting")
